Voted Florida's Top 100 Companies to Work for 2010 – 2016 by Florida Trend

Voted 2008 – 2017 Best Places to Work by CareerSource Polk

This position is responsible for, but not limited to:

The Senior Environmental Engineer will lead a variety of environmental and/or engineering projects for our organization. They work with A-C-T staff and resources from within their group and other A-C-T business groups to ensure their environmental projects meet all requirements set by regulatory agencies, clients and A-C-T.

Key Responsibilities / Essential Functions

- Execution of traditional and environmental engineering projects involving both existing and innovative technologies for cleanup/removal of hazardous wastes, contaminated soils and groundwater.
- Project or technical management of site investigation/remediation including conducting feasibility studies.
- Evaluation of remedial technologies, design and implementation of in-situ and ex-situ remedial approaches.
- Oversight of operations and maintenance of remediation equipment/installations, remedial system design specification compliance and optimization, facility compliance evaluations and emissions calculations.
- Regulatory applicability reviews (review/interpretation of environmental regulations), engaging staff in field data collection and interpretation, permit preparation and completion of reports.
- Working knowledge of the Resource Conservation and Recovery Act program, Clean Water Act, Clean Air Act, Petroleum Restoration Program and familiarity of the Florida Department of Environmental Protection regulations is required.
- Oversee project staff (engineers, scientists, project managers, field services staff) and subcontractors.
- Manage all aspects of assigned projects including technical and budgetary schedule to maintain client satisfaction and repeat business.
- Provide technical expertise to project teams within the company.
- Prepare proposals.
- Work effectively with minimal supervision.
- Develop new business opportunities and expand business with existing clients.
- Provide effective communication to staff and other corporate officers.
- Complete other job duties as necessary.

Education and/or Required Experience

- A Bachelor's degree in Engineering (Environmental and/or Chemical Process)
- Minimum of 8-10 years of environmental consulting and design experience to support projects involving site investigations, remediation, regulatory compliance and environmental permitting for groundwater, soil, soil vapor, air and regulated waste.
- Florida PE registration with relevant hands-on experience and management experience of subcontractors, scheduling, and agency negotiations required.

Additional Qualifications

- Proficient in AutoCAD 2015 or later and air/water modeling.
- OSHA 40-hr HAZWOPER training preferred.
- Proficient with MS Word, Outlook and Excel.
- Must have excellent interpersonal, communication (written and oral) teamwork, leadership, organizational and negotiating skills.

- Must be highly motivated, customer focused, a self-starter, a problem solver, must have an energetic personality and be able to work well as a team lead.
- Experience in serving public and private sector clients including: development of technical approach, budget and schedule, monitoring project performance, client and regulatory interface and delivery of technically superior work products.
- Must work well both alone and in team settings
- Able to manage multitask work in a fast-paced environment.
- Willingness to work additional hours in order to meet job requirements.
- Upholds the ethics and values of the company.
- Ability to travel, including some overnight.
- Pre-employment drug screen according to A-C-T's Drug Free Workplace policy.
- Acceptable driving record in accordance with A-C-T's Insurance & Driving policy.
- Satisfactory background check.

Our Team Members enjoy:

- Competitive Salary
- Training
- Medical, Dental & Vision Insurance
- Life Insurance
- Short-Term Disability Insurance
- Supplemental insurance options including Long-Term Disability
- 401K Matching Plan
- Tuition Reimbursement
- Employee Assistance Program
- Vacation and Personal Days

A-C-T is an equal opportunity employer and a drug free workplace.
